Job Description – Pilot

To apply for this position please e-mail your resume to pilots@controlcam.com

The pilot is responsible for supporting the Lead Pilot in all areas in order to create a safe and proficient flight atmosphere. Pilots perform work with Mar-Tech, a division of ControlCam. Mar-Tech, a licensed engineering firm, has been performing CLI flyover testing since 1989 and is recognized and well known by the FCC.

**Minimum Qualifications**

- 550 hours of total flight time

- 30 hours of multi-engine time

- Must possess a high school diploma or GED

- Must hold Commercial ASEL + AMEL with Instrument Rating

- Must be a current CFI (CFII + MEI preferred)

- Must possess and be able to exercise privileges of at least a Second Class Medical Certificate

- Must be able to demonstrate Commercial Standard flying skills
**Job Duties**

Job responsibilities include but are not limited to:

- Communicate with scheduled clients while on the road.
- Transfer data to the main office nightly.
- Accurately maintain the Test Log.
- Assist the Lead Pilot.
- Adhere to all company policies written or implied.

Mar-Tech provides RF leak detection for cable companies. Pilots are trained on the following and expected to perform each as part of their job duties:

- Maintain and operate the CLI equipment on board the aircraft.
- Periodically calibrate the CLI equipment while on the road.
